

Installing the NISS System CA

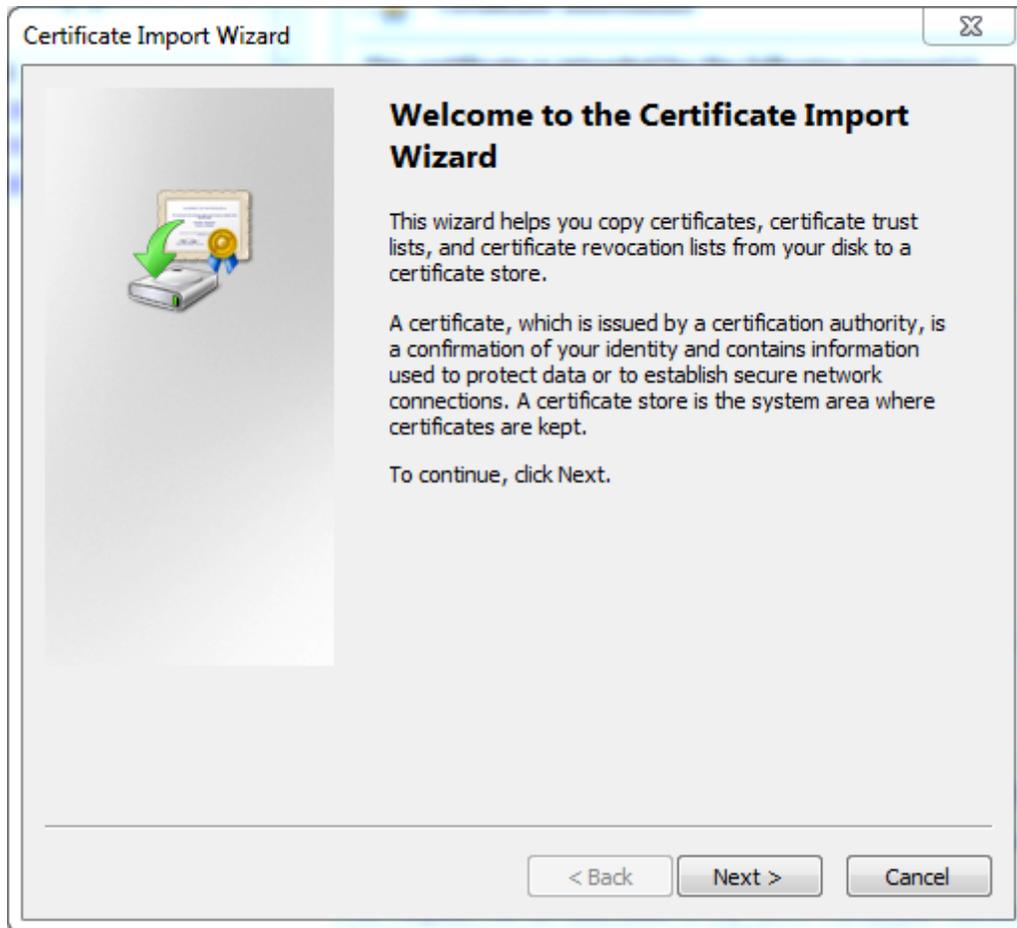

Method 1: Open and Install

Click on **Install the NISS System CA**. Select the Open option.

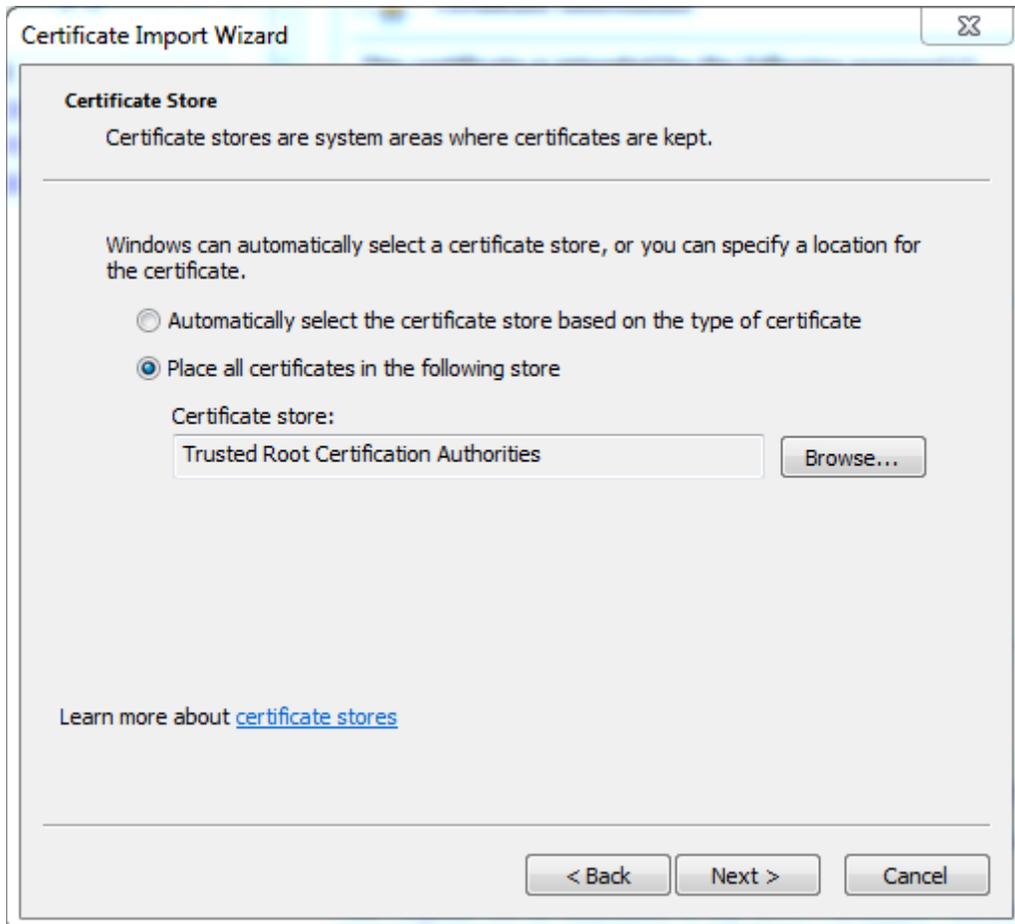

Click on Install Certificate.

Click on Next.

Select Place all certificates in the following store. Browse to select Trusted Root Certification Authorities. Click Next.

The image shows a Windows dialog box titled "Certificate Import Wizard". The window has a standard title bar with a close button in the top right corner. The main content area is titled "Certificate Store" and contains the following text: "Certificate stores are system areas where certificates are kept." Below this is a horizontal line, followed by the text: "Windows can automatically select a certificate store, or you can specify a location for the certificate." There are two radio button options: "Automatically select the certificate store based on the type of certificate" (which is unselected) and "Place all certificates in the following store" (which is selected). Below the selected option is a text box labeled "Certificate store:" containing the text "Trusted Root Certification Authorities". To the right of the text box is a "Browse..." button. At the bottom of the dialog box, there are three buttons: "< Back", "Next >", and "Cancel". A link "Learn more about [certificate stores](#)" is located at the bottom left of the main content area.

Certificate Store
Certificate stores are system areas where certificates are kept.

Windows can automatically select a certificate store, or you can specify a location for the certificate.

Automatically select the certificate store based on the type of certificate

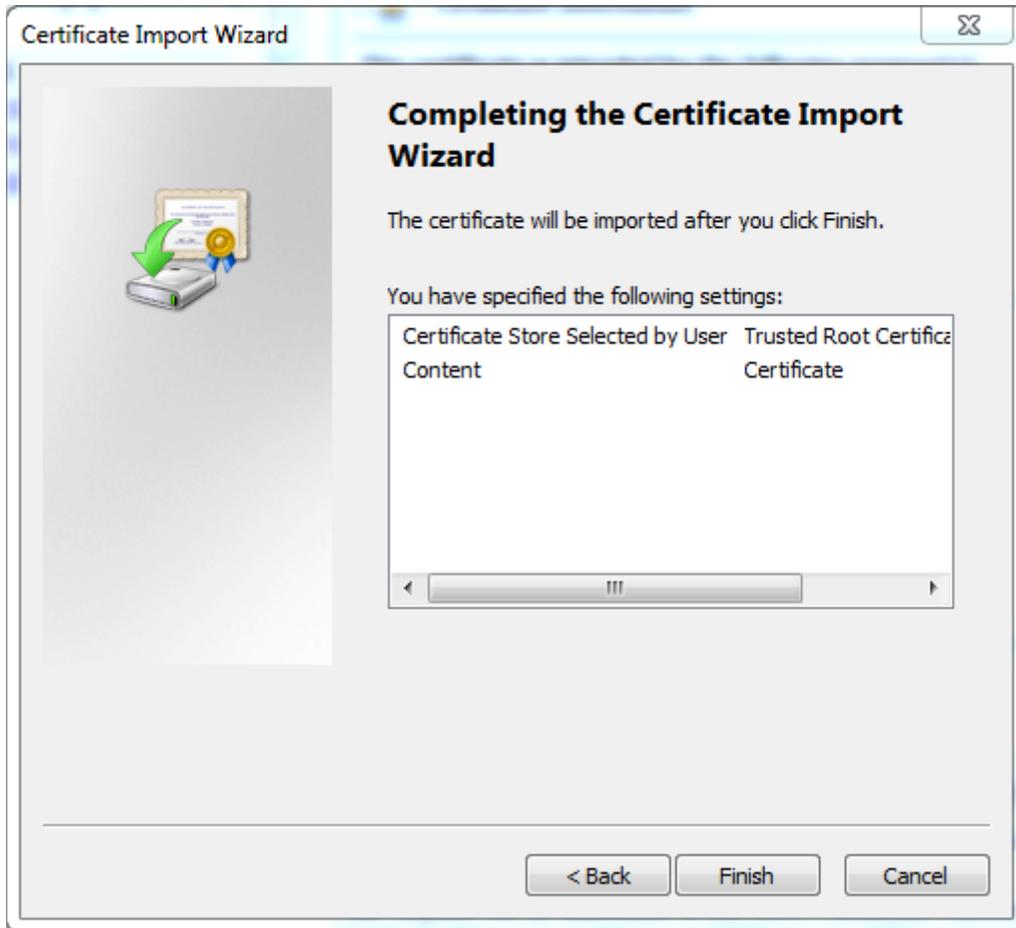

Place all certificates in the following store

Certificate store:
Trusted Root Certification Authorities

Learn more about [certificate stores](#)

< Back Next > Cancel

Click finish.

Answer Yes to the Security Warnings about installing the certificate.

You should receive a status that the import was successful. Click OK and OK to close all windows.
